

#### Miscellaneous.

"You lie like a gasmeter," is a Rochester idiom.

What is that which by losing an eye has only a nose left? A nose.

Never scold a fly with a club when a feather will do as well.

And now the tuncful frog indites his plaintive lay to the pale silver moon, o' nights. And she merely winks back at him.

A French wit said of a man who was exceedingly fat that nature only made him to show how far the human skin would stretch without breaking.

Cape May is to have a new opera house—such a one as will be available for any public amusement which may be presented to the "populace of the day."

It is said that the essential oil in onions is so powerful that if a man were to die shortly after eating one, his brain would exhale the odor of the vegetable.

Our unprotected bachelor hopes his landlady won't join the Cremation Society, as he would be sorry to have her ashes handed down to future generations.

It is said that counterfeit half dollars, bearing the date of 1871, are circulating in Sacramento, and bogus quarters, dated 1844, are very numerous in San Francisco.

An ostentatious undertaker of Troy, having charge of an aristocratic funeral lately, mounted the altar steps and delivered the following address: "Ladies and gentlemen will please keep their seats till the corpse passes out."

"Ma, has aunt got bees in her mouth?" "No; why do you ask such a question?" "Cause that leetle man with a heap o' hair on his face cotched hold of her and said he was going to take the honey from her lips; and she said, 'Well, make haste!'"

How it goes to be fresh married in Buena Vista is thus told by the Sioux Rapids Echo: "One of our young married men thinks so much of his lovely wife that he lights the candle two or three times every night to look at her. Then he quietly goes to sleep and chuckles in his sleep like a turkey gobbler, he feels so good."

Some one says if we would show ourselves really good to our daughters, we "must be generous to them in a truer sense than that of hanging trinkets on their necks." No words could be more sensible. Nine girls out of ten would rather have a camel's hair shawl than a necklace. Parents should remember this.

Another one of those benefactors of the human race has made his appearance in Worcester, Mass., with an invention which he calls the boy's pocket arrow." There is not much excitement about it just at present, but lively times are expected as soon as the number of one-eyed people increases.

A new way to claim old debts has been practiced in Brooklyn, N. Y., where a truckman accompanied by a boy bearing aloft a conspicuous placard, with the legend, "Waiting for \$12 for removing furniture and putting down carpets," has made the life of a prominent citizen a burden. Believing that he had suffered enough agony by reason of the inevitable May moving, the gentleman very properly had this latest disturber of his peace of mind promptly arrested.

It is reported that the steamer Queen Elizabeth, recently lost near Gibraltar, had on board one of the most valuable cargoes ever shipped from Calcutta. The entire value of the cargo is estimated at \$2,540,000, including \$1,650,000 worth of indigo, \$250,000 worth of tea, and \$415,000 of silk, shellac, and other articles. The vessel was valued at \$135,000, making the aggregate loss \$2,775,000. The vessel and cargo were insured for nearly \$2,000,000.

Among curious wills that of an officer in the East India Company's service certainly deserves mention for its originality. Being very poor, the testator bequeathed "to the poor of Bengal the office of paying any sum or sums which may be found at my death that I owe to any person in needy circumstances—the whole can not amount to more than 300 rupees." The legatee generously accepted this equivocal legacy. The testator also wished it to be understood that he won the amount of his burial expenses from a certain undertaker at a game of billiards.

Gov. Dix, of New York, has signed the compulsory education bill. By its provisions it compels parents and guardians to give children of from eight to fifteen years of age, either in a school or at home, at least fourteen weeks' regular instruction every year in reading, writing, arithmetic, English grammar, and geography. It prohibits the employment of children within the ages named at any labor during the time when the district schools are opened, and school officers are given authority to see that it is enforced.

Such stories as the following—the truth of which is vouched for by a San Francisco journal—tend to restore our faith in the native heroism of Lo, and incline to the belief that, after all, the reviled Indian's code of honor and gallantry is not nearly as black as has been painted: "Six weeks ago seven male Indians and a young Indian woman started to cross Clear Lake, near the northern end, in a small boat, which was capsized three miles from land. They righted it, but as the lake was rough they could not bail it out, and while full of water it would not support more than one person. The men put the girl in, and held on the edges of the boat, supporting themselves by swimming till exhausted and chilled through by the cold water, and then dropping off and sank one by one. They showed no thought of disputing the young woman's exclusive right to the boat. She was saved by her self-sacrifice."

Let us have peace.

This gentle woodlark is now doing business on tick.

Now plant soap boilers and real-tyes on your ash-tots.

#### A Slight Mistake.

The following anecdote, which is said to have appeared in the newspapers several years ago, is said to have been founded on an actual occurrence. Although it may not illustrate the Democratic simplicity of the people of Vermont to-day, it is nevertheless a good story, and good also for many years' longer life in the newspapers:

"Hallo, you man with the pail and frock, can you inform me whether His Honor the Governor of Vermont lives here?" said a British officer, as he brought his fiery horse to a stand in front of Governor Crittenden's dwelling.

"He does," was the response of the man, still wending his way to the pigsty.

"Is his Honor at home?" continued the man of spurs.

"Most certainly," replied frock.

"Take my horse by the bit, then," said the officer. "I have business to transact with your master."

Without a second bidding, the man did as requested, and the officer alighted and made his way to the door, and gave the pail several hearty raps with the butt of his whip—for he it is known that in those days of Republican simplicity, knockers and bells, like servants, were in but little use. The good dame answered the summons in person; and having seated the officer and ascertained his desire to see the Governor, departed to inform her husband of the guest's arrival; but on ascertaining that the officer had made a hitching-post of her husband, she immediately informed him that her husband was engaged in the yard, and could not very well wait upon him and his horse at the same time. The predicament of the officer can be better imagined than described.

#### Ohio Crops.

From Piqua all kinds of fruit are reported uninjured.

The Clarke county fruit crop is believed to be in the main all right.

About Xenia the fruit was considerably damaged by last week's freeze.

The Hamilton county fruit crop is said to have safely passed the frosty ordeal.

On the low lands about Logan the fruit has suffered somewhat by the late frosts.

The Perry county wheat crop never promised better. Fruit prospects are also good.

Fruit in the vicinity of Circleville has almost entirely escaped injury by recent frosts.

In some parts of Montgomery county the peach buds are all killed, and in others they are uninjured.

Pasture land in Lorain county looks sickly for the season, and growing wheat has suffered from changes in the weather.

In Meigs county wheat has seldom looked so promising, and there is a good prospect for an abundance of all kinds of fruit.

Owing to the failure of last year's corn crop there are now fewer fat cattle and hogs in Madison county than for many years.

In Ross county comparatively little fruit was killed by last week's freeze, although ice formed an eighth of an inch thick.

#### Agricultural Items.

A large bed of gypsum has been found in Furnas county, Neb.

The farmers of Los Nietos, Cal., commenced haying a fortnight ago.

The banana crop of 1873-74 throughout the South has been very large.

Over 20,000 pounds of vanilla beans are annually imported from Vera Cruz.

A Lapor county, Indiana, sow gave birth to a litter of twenty pigs recently.

A company has been formed in Bath county, Ky., to emigrate to Texas next fall and locate in one colony.

Monroe county, Ga., makes a large and profitable hay crop on the magnificent prairie-farms once cultivated in cotton.

One farmer in Monmouth county, who has six acres in Wilson blackberries, sold last season fruit to the value of \$3,000.

A colony of twenty-two persons is on the way from Omaha to Oregon. They represent a capital of \$100,000, and will settle at Salem.

Colorado was a howling wilderness, without a railroad, five years ago. Now the civilized steam-whistle carries its nozzles over 700 miles of territory.

Willis Moon, of Eaton county, Mich., during the present season made 2,000 pounds of maple sugar from 500 trees. He carried his sap and performed the labor of making all alone.

Lorenzo Abbott, of Hillsdale county, Mich., claims to have the largest operating sugarbush in the United States. He taps 1,800 trees, and in favorable seasons makes from 5,000 to 10,000 pounds of sugar.

Connecticut farmers are now turning attention to market gardening and the cultivation of strawberries, in consequence of the collapse of the tobacco trade, the entire crop of last year being still on hand owing to the want of buyers.

Mention is made of an inveterate cribber which was effectually cured of the reprehensible habit by simply "pulling strips of sheep-skin, wool side up, on the edges of the manger and in every place about the stall where the horse could get hold with his teeth."

It is estimated that the number of railroad ties in present use in the United States is 150,000,000. A cut of 200 ties to the acre is above the average, and it therefore has required the product of 750,000 acres of well-timbered land to furnish the supply. Railroad ties last about five years; 30,000,000 ties are used annually for repairs, taking the timber from 150,000 acres. The manufacture of rolling stock disposes of the entire yield of 350,000 acres and a full supply of 500,000 acres more every year. Our railroads are stripping the country at the rate of 1,000,000 acres per annum.

From our fashion notes: The latest agony in shoes—corns.

**Dr. J. Walker's California Vinegar Bitters** are a purely Vegetable preparation, made chiefly from the native herbs found on the lower ranges of the Sierra Nevada mountains of California, the medicinal properties of which are extracted therefrom without the use of Alcohol. The question is almost daily asked, "What is the cause of the unparalleled success of VINEGAR BITTERS?" Our answer is, that they remove the cause of disease, and the patient recovers his health. They are the great blood purifier and a life-giving principle, a perfect Renovator and Invigorator of the system. Never before in the history of the world has a medicine been compounded possessing the remarkable qualities of VINEGAR BITTERS in healing the sick of every disease man is heir to. They are a gentle Purgative as well as a Tonic, relieving Congestion or Inflammation of the Liver and Visceral Organs in Bilious Diseases.

The properties of DR. WALKER'S VINEGAR BITTERS are Aperient, Diaphoretic, Carminative, Nutritive, Laxative, Bile, Sedative, Counter-Irritant, Sudorific, Alterative, and Anti-Bilious.

Druggists and Gen. Agts., San Francisco, California, and San Jose, California, and all Druggists and Dealers.

Oct. 23, 1873—comly

Gallia Academy  
vs.  
William H. Langley  
and others.  
Gallia County, District Court.  
MESHACK MORRIS is hereby notified that said plaintiff has filed a bill to settle up the estate of Becha S. Tupper, deceased, and to provide for sale of real estate to pay legacies, and that by said bill a legacy was devised to said Meshack Morris; and that said Morris is hereby notified to appear on or before the first day of September, 1874, and answer said petition and set up his claim, if he has any, to the said legacy; otherwise he will be barred all claim by reason thereof.  
GALLIA ACADEMY,  
By SIMON NASH, its Attorney.  
April 23, 1874.—6w

#### Manhood: How Lost, How Restored.

JUST published, a new edition of Dr. J. Culverwell's Celebrated Essay on the radical cure (without medicine) of SPERMATORRHOEA or Seminal Weakness, Involuntary Seminal Losses, Impotency, Mental and Physical Incapacity, Obstructions to Marriage, etc., also, CONSUMPTION, EPITHELS and Firs, Induced by self-indulgence or sexual extravagance; Piles, &c.  
Price, in a sealed envelope, only six cents.  
The celebrated author, in this admirable Essay, clearly demonstrates from a thirty years' successful practice, that the alarming consequences of self-abuse may be radically cured without the dangerous use of internal medicine or the application of the knife; pointing out a mode of cure at once simple, certain, and effectual, by means of which every sufferer, no matter what his condition may be, may cure himself cheaply, privately and radically.  
This lecture should be in the hands of every youth and every man in the land.  
Sent under seal, in a plain envelope, to any address, post-paid on receipt of six cents, or two post stamps. Also, DR. SILLBEE'S REMEDY FOR PILES. Send for circular.  
Address the Publishers,  
CHAS. J. C. KLINE & CO.,  
127 Bowery, New York, Post-Office Box, 4596.  
April 30, 1874.—1y.
